## FANTASY TAN'S UNIQUE AWARD WINNING FORMULA

**Fantasy Tan**  
CREATORS OF SPRAY TANNING

### Fantasy Tan SunSpray® Light-Medium

SunSpray is the world's first spray on tanning formula. SunSpray was created to give fair skinned clients that flush look that comes from the beginning stages of UV tanning then develops into a light golden healthy glow. SunSpray is our most famous color. SunSpray was specifically created for very fair skinned clients. However, it is commonly used on all skin types because of its realistic effects.

### Fantasy Tan BoTan® Medium

BoTan was designed as the next step in sunless to realistic UV effects. Needing something that looked like a more mature tan consistent with a week's worth of UV tanning, Fantasy Tan created BoTan. This formula is often combined with SunSpray for clients that are addicted to that realistic flush look. BoTan is available in bronze or clear.

### Fantasy Tan Celebrity Glow® Medium - Dark

Let the red carpets roll! Celebrity Glow is designed to be the perfect tan that you see celebrities flaunting in the spotlight. It's "not to light" or "not over done." Celebrity Glow looks like the sun soaking, pure relaxation tan that one can expect to get from a two-week long vacation in the Caribbean. Celebrity Glow is not recommended for very fair skin.

### Fantasy Tan Chocolate Tan® Dark

"I'm screaming for attention" is the effect embellished in our world famous "Chocolate Tan." This fun formula was designed to keep all eyes on you. It's unique bronze cast and mysterious persona will make its wearer the center of attention. Chocolate tan gives your client a delicious appeal good enough to eat... well, not literally.

### Fantasy Tan SunSet Bliss® Dark 2

"Darker Please, More Tan, I want more Tan!!!" What could we say, other than. YES. We realized some customers want to be dark, but they have different opinions on what they think is dark. So, SunSet Bliss was created as another flavor for those clients that want to push their limits without looking orange but rather have some flushed color with their indulgence. SunSet Bliss is a hybrid dark 2 formula that keeps tanning up to 48 hours.

### Fantasy Tan Twinkle Tan® Topical Shimmer

Twinkle Tan is the ultimate glamour tan, ideal for cocktails, clubbing, or special events. It can be applied over any Fantasy Tan to add a gorgeous shimmer that will make you shine.
